CAREER OBJECTIVE

An aspiring Software Engineer actively seeking a working student position. Highly motivated to continuously develop technical skills, apply academic computer science principles to real-world applications, and contribute meaningfully to innovative projects.

EDUCATION

Bachelor of Computer Science
GISMA University of Applied Sciences

Currently Studying
Berlin, Germany

TECHNICAL SKILLS

- **Programming & Scripting:** Python, JavaScript, PHP, SQL
- **Web Development:** HTML, CSS, 3-Tier Web Architecture
- **Databases & Architecture:** MySQL, Relational Database Design, SQL Normalization
- **Tools & Technologies:** Git/GitHub (Version Control), LaTeX (Documentation), WebDrivers (Selenium), VS Code
- **Operating Systems:** Linux, Windows

ACADEMIC PROJECTS

Computer Science Portfolio Website

HTML, CSS, JS, LaTeX

- Designed, structured, and deployed a professional computer science portfolio hosted on GitHub Pages utilizing a modern Bento-box UI.
- Maintained a well-documented GitHub repository featuring technical exercises and a LaTeX-generated CV.

Project Oceanus: Fleet Management Simulation

PHP, MySQL, JavaScript

- Developed a 3-tier web-based game application focused on fleet management.
- Successfully engineered database connections, managed CRUD operations, and designed the front-end layout for seamless user interaction via asynchronous API calls.

Lantern Library Database System

SQL, Database Architecture

- Designed and implemented a highly normalized (3NF) relational database architecture for a library events booking system.
- Created detailed ERD models and executed complex SQL table scripts to ensure data integrity without redundancy.

SOFT SKILLS & LANGUAGES

- **Languages:** German, English
- **Professional Traits:** Analytical Problem Solving, Technical Documentation, Adaptability, Concept Tree Learning (breaking down complex domains into structured hierarchies), Team Collaboration.

PROFESSIONAL EXPERIENCE

Currently seeking working student opportunities to gain hands-on professional experience in software engineering and systems development.

DECLARATION

I hereby declare that the above-mentioned statements are true and correct to the best of my knowledge and belief.
